

Lower Eyre Peninsula

Stud Information

For clients that have followed us closely over the years, you will know that we have been working very hard to achieve superior quality white crimping wools with great lustre and crimp definition. We have established ourselves within South Australia, and are building our reputation interstate, as having high class wools, on large plain bodied, free growing poll merinos. For new clients all of this has been achieved by obtaining specially selected genetics from South Australia and Victoria with stringent classing, articulated joinings and professional management. We take a great deal of pride in our rams that we present to you at each sheep show and at all sale venues.

Mulesing ceased at Roemahkita in 2007, after shearing in mid August any 4 month old lambs showing any breech wrinkle at all were clipped, this resulted in 2008 40% lambs clipped, in 2009 34% lambs clipped and in 2010 23% lambs clipped.

February 2 2011 we OFDA tested 220 *9½ months old ram lambs*, with outstanding figures *averaging micron 18.6 CV 16.0 SD 2.9 CF% 99.8 and body weights averaged 72.3kg*, with six months wool growth fleeces averaged 5.2 kg as shearing time, February 16. This wool was sold through Elders Premier Wool in March, with rams fleece wool testing 18.3 micron. Ewes rising 2 years tested: Micron 18.8, CF%99.5, ewes rising 3-7 years: Micron 20.2, CF% 99.1.

We are endeavouring to breed poll merinos with a great carcass and growth rates together with super quality crimping white wools. We aim for our clients whether lambs and cull ewe lambs to achieve 18-24 kgs carcass weights as soon as possible (ideally 6-8 months of age) with plain wrinkle free skins, that attract high prices. The easy care modern day money making merinos, Roemahkita rams are meat and fibre in the one great package.

Breeding for the future: tomorrows genetics today!

Checking out the prize 0007 & 0023 won at Burra in the Inaugural Ramsey Bros/Case IH South Australian All Purpose Pair of Ram Lambs Competition, March 2011. Well done boys a \$14000, addition for Roemahkita! Thankyou to Ramsey Bros and Case IH for your kind sponsorship.
